

# INTRODUCING AFRICA'S PROPHET "RE": (THE PROPHET(ESS) FOR AFRICANS & MOTHER TO HUMANITY)

FOR OUR MOTHER: LADY AFRICA

"HER FREEDOM IS OUR FREEDOM." -REPLICC

*Written by: Re PLLICC 2014/12/17*

# CONTINENTS

- The process and study of the **movement**, collision and division of continents tells us that there are seven regions commonly regarded as continents: Africa, Antarctica, Asia, Australia, Europe, North America, South America

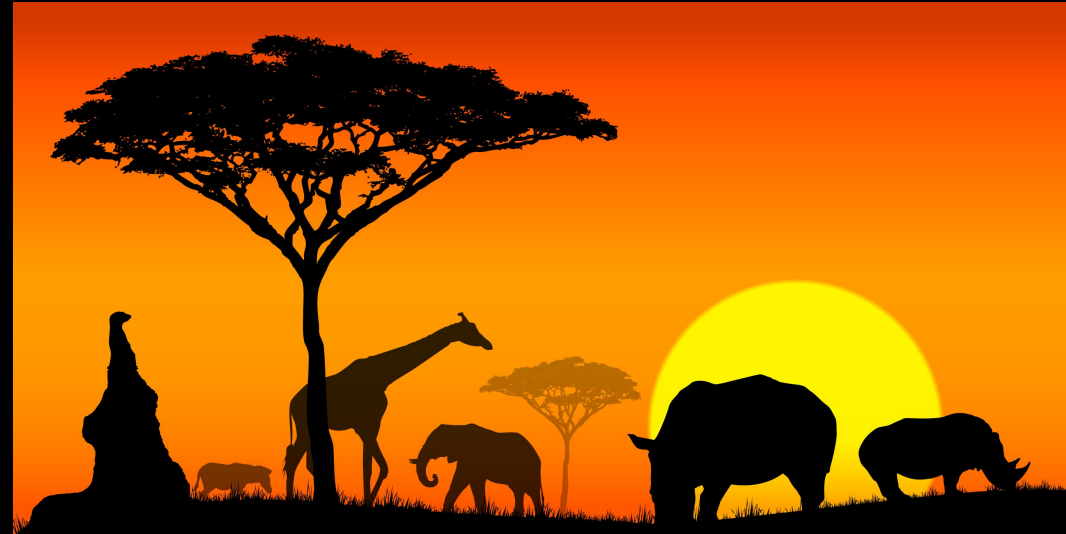

# "LADY AFRICA"

- AFRICA is feminine. The African continent is the mother of all life. She is clothed in diamonds, in gold, in rubies, in pearls, in sapphires, in platinum...
- This might be easier for the French speaking to understand, because in the French language when trying to determine which preposition to use with a country or continent, the only difficulty is in knowing its gender. ***In French, Africa is feminine.***

# GWRM

- This is important; understanding the **connection** between the “global women movement”, to the awakening of the African continent.
- The global women recognition movement – GWRM, was founded precisely on those principles of restoring not only her (lady Africa) respect and dignity, but also for the recognition of female and girl leadership: not withholding recognition, skills and knowledge to them. These two goes hand in hand.
- The women recognition movement should work together with the “blacklifematter” movement for prompt results.
- <https://gwrn.wordpress.com>

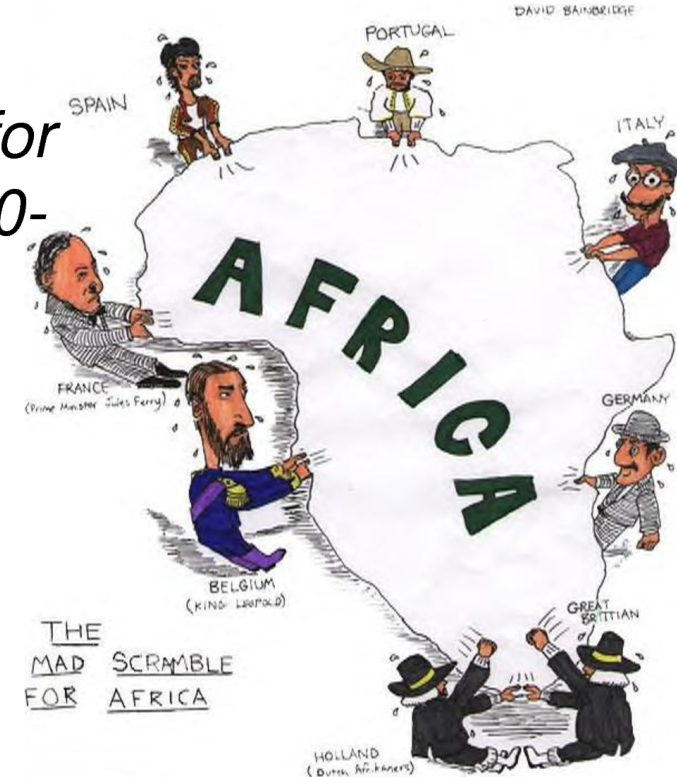

# ALL LIFE LIE IN AFRICA

- There is stronger evidence from genetic data, scientists have released to claim that the origins of life lie in Africa.
- All animals spirits move to Africa after death.
- The world's 6,000 or so modern languages may have all descended from a single ancestral tongue spoken by early African humans between 50,000 and 70,000 years ago.

# 129 YEARS AGO

- Beginning from scramble for Africa, the 1885 Berlin conference. The British, the French, the Portuguese, the Belgians, Spain, Holland, the Germans and the Italians divided the delicious cake of Africa.
- From 1885 to 2014 is exactly 129 years. It seems as though it will forever remain in this condition.
- It will take a global effort to restore her.
- This time Africans must be included, and play a leading role in taking care of their own continent.

## *The Scramble for Africa 1880-1914*

"freedom cannot be achieved unless the women  
have been emancipated from all forms of  
oppression".

–NELSON MANDELA

# THE GATEKEEPERS

- The movement or evolution of humanity, The Christ or grace revolution, enlightenment and knowledge brought development/growth and civilization to the West.
- Humanity moved from Africa in order to spread around the world's continents; as Africa and Africans remained, the continent lagged behind.
- As people moved, stretching themselves, the heavens and the universe assisted them by providing them with prophets or leadership that will usher them into new knowledge and understanding that will assist them to development & growth; **moving forward the wheel of civilization.**
- Thanks to the gatekeepers of knowledge from the unseen world, Africans can now access the ultimate enlightenment of knowledge and wisdom to a bright continent.
- 2014 as promised to us, was indeed that year of Glory!

# THE PRIDE AND THE PLEASURE OF BEING REMEMBERED BY THE DEVINE

- The West & Europe scientists and most of their population today proclaim that there is no God (or Devine or higher force of intelligence), as though science is not part of the door of knowledge that was opened to them centuries ago, and in that have built and grew in entrepreneurship using that knowledge given by their prophets and philosophers.
- The Jews also believe that the ERA of prophets has but long disappeared. After-all, no nation has enjoyed enlightenment, protection and sacred knowledge via prophets than the Jewish people.
- The Muslims believe that the prophet Mohammed (peace upon him), was the last prophet. Perhaps this is true for the Arabs...
- But for Africans; Africa is yet to enjoy the same thing, to feel the pride and the pleasure of being remembered by the Devine as a unified people, a unified continent.

# AFRICA IS BOTH A CONTINENT AND A COUNTRY

- Africans divided have enjoyed some level of great leadership from country to country; that is not going to cut it.
- We need a leader that will unify African countries.
- Africans didn't divide their continent to what we know Africa to be today.
- The sooner we recognize that the better.
- Nelson Mandela conquered for the respect and dignity of South-Africans and inspired the world. We know that if he didn't spend so much time in jail, he would have continued to spread the message of human dignity and unified Africa and the African people.

***"CONTINENTAL OR NATIONAL CONFUSION  
COMES FROM LACK OF LEADERSHIP,  
UNFULFILLED PROMISES AND  
A SENSE OF BEING FORGOTTEN"  
-REPLICC***

# THE TORCH HAS EXCHANGED HANDS

- Some South Africans today utter complains about what Nelson Mandela didn't do for them economically; blaming him for the economical inequalities that exist in South Africa today.
- This is a sign of how we as a people can be blinded by our own lack of courage, how we can lack understanding and appreciation to those who sacrifices for our freedom.
- Dismantling of Apartheid and restoring dignity to South Africans was just an initial step of victory that took our leaders including Nelson Mandela decades of persistent leadership under difficult circumstances.
- It should never be taken lightly, we should be grateful and keep the light burning.
- The torch has exchanged hands, now we must spread that spirit all across Africa and above that, instill the energy of entrepreneurship, because entrepreneurship is that biggest indication of an enlightened land.
- Light your staff, and keep the light burning!

**2015**

# A CONTINENT WITH ITS 1.111 BILLION PEOPLE UPLIFTED

- Living in Europe has granted Re and her sons a better understanding on how Africans are viewed or perceived by other cultures or races across board.
- This has helped to really understand who we are. For example, when an ordinary person lives inside Africa, they see themselves as Zulu first (tribal mentality) then as a South African (nationalist), ...and by chance view themselves as African. Infact the African continent is far from mind for most South Africans.
- At the end of the day Africans all across the globe are crying out for justice:
- In USA, African Americans are still crying for equality, young teenage boys or black men are gunned down by police officers like animals. Africans in Europe are subjected to extreme prejudice and labels, struggling to get opportunities regardless of their education.
- The truth is; until Africa is repaired and Africans allowed to trade fairly; The world will not be able to advance and Africans will never get the respect they deserve.
- One rich African here and there is not enough, one successful African here and there is not enough. We need a people enlightened and operating in Light and succeeding in life.
- We need a continent with its 1.111 billion people uplifted, living in dignity and walking with their heads held high.

# WHY PROPHETS? WHY SUCH SPIRITUAL LEADERSHIP?

- Prophets or Spiritual leadership are crucial for the land and its people;
- Appointed prophets and leadership brings fertility, fecundity, healing, restoration and so much more to the land and its people. It brings about good fortune, civilisation, pride and dignified social good or social justice/laws to govern in peace and fairness.
- Prophets help unify all gods or spirits into submission to One Great God. That One, doesn't judge, discriminate, demand, weighing down people of the land; instead He/She opens to them the gates of life by grace.
- Prophets also speak hope on the land...their words clothed in supernatural power, echo in the universe through eternity, accomplishing their words and what they were sent out for!

# IT'S TIME FOR THE RISE OF AFRICA

- Understanding spirituality in 2014 has advanced; for example, we know that God isn't seeking to be worshipped in buildings as though He needs ego busting, but we understand that but understand ourselves as "trees of life", the universe around us, using our gifts and talents to create and innovate here on earth, is the greatest form of worship to the Creator(s).
- Africa, do not fear to be too late or being last!

Everything has its own time. Being last is not always the bad position as long as you do not remain there. Nations rise and fall!

- Your success also does not take from anybody else's success. Africa's rise doesn't depend on taking from other nations, that would be lack or shortage mentality. There is enough resources on earth to ensure no human soul goes to bed hungry.
- We must master distribution, and focus on investing on enlightenment and producing and trying new ideas; Innovation, creativity and implementation is what will help us to increase.
- We also need to master storage and the distribution process to prepare for 8years of consecutive overflow and abundance that will begin in 2020.

# GOD, BOTH MOTHER AND FATHER

- Finally, this One Great God is not just a male, but a balanced male and female energies (Both a Mother and a Father);
- Today the feminine side of God is stronger on earth and we will see quite a significant amount of female leadership rise through out all continents.
- Again, female leadership does not nullify male leadership.
- Resources are even more important, financial strength and off-course good quality leadership, not so much the emphasis on gender.

# KILLINGS OVER RELIGIONS ARE OVER

- Religion is no more important than clean water to drink, than language and its preservation, than electricity, than knowledge, than good transportation vehicles and infrastructure.
- The idea is not to be religious. The world's Religions are not more important than knowledge, than philosophy, then cultures, arts and all knowledge there is.
- **There is nothing to do in order to please God.** God is already well pleased with you or with us, that's why this time has come. Falling from grace results in self-efforts to righteousness. There is no list of do's and don't's and how's or when's.
- The written laws that will be given to us as a people isn't to judge us or condemn us; but will help improve our quality of life, govern justice and peace in the land, and above that stimulate growth and opportunity.
- You are a walking and alive church, you don't have to go to "a" church. But you must be connected to the internet, because the internet is a bank of knowledge. What is going inside your brain & heart is far more important than attending some church service and zero transformation. You are the tree of life, just breathe oxygen to your community.
- Prosecuting your neighbor for believing differently than you is barbaric. If his or her practices doesn't harm you or your environment, and abides to the laws of the state, then leave in peace with them, for humanity is but the core of civilization. UBUNTU!

“Continental or national confusion comes from lack of leadership, unfulfilled promises and a sense of being forgotten.”

–@REPLICC

# AFRICA, THE AFRICAN PEOPLE

- I, Re, honorably take this opportunity to humbly introduce myself to you as your servant, your prophet(tess). The prophetess or leader for the African continent and its people.
- Tata Nelson Mandela passed away 2013/5 Dec, "today, the torch has exchanged hands...receive it, we will support you to run with it" ...
- I am the leader for united humanity, one world, united races, channeling light and knowledge.
- I have no doubt that I am not the last prophet or prophetess, therefore creating a new religion after me will only stagnate you.

**You wanna go where nobody that you know has gone?  
Then don't look back,  
do not even look around you.  
Instead look ahead!  
Look! A stranger throws you a ladder,  
Go ahead climb.  
Reach for the Light-cone.  
Light your staff  
& keep the light burning!**

*-@RePlice*

# JOIN THE REVOLUTION

- Join us in heart, in faith for the healing and restoration of our mother Africa.
- She will continue to regain strength and receive enlightenment, but most importantly:
- She will begin to gain financial prosperity that will advance her infrastructure, education system, stability, eradication of diseases and poverty as the people begin to live in dignity. No more brain drain, no more unnecessary losses.
- 8 Nations will stand in her support for her swift shift. \*8 will support her and bring her to full restoration!

SOLENTIA SALUTE:  
THE COMBINATION OF ANCIENT  
AND  
MODERN SPIRITUALISM

Four Fingers Salute  
The Solentia Salute
